

# FARUQ AFOLABI

## DATA SCIENTIST

### ABOUT ME

Highly motivated Data Scientist with a strong Programming and statistics background. Proven ability to leverage Machine Learning (ML), Deep Learning (DL) leveraging Python and its libraries like (TensorFlow, Pandas, Scikitlearn, Keras and Pytorch, Seaborn, Matplotlib, Flask), Computer vision (image classification, object detection), and NLP to extract valuable insights from diverse data (images, text). Skilled at collaborating with stakeholders to translate findings into actionable business strategies. Efficient data analysis and reporting through SQL ensures impactful solutions are consistently delivered.

### SKILL

- Python Programming
- Machine Learning (ML) Supervised Learning (logistic and linear regressions, support vector machines, decision trees, Unsupervised Learning) Reinforcement Learning
- Deep Learning
- Data Visualization
- Natural Language Processing (NLP)
- Computer Vision
- Machine Learning in production (MLOps)

### EDUCATION

Federal University of Technology, Akure.  
Bachelor of Technology  
Physics Electronics  
January 2017 - January 2024  
GPA: 3.7

### CERTIFICATION

- DeepLearning.AI Machine Learning Professional Certificate
- DeepLearning.AI Deep Learning Professional Certificate
- DeepLearning.AI Tensorflow Professional Certificate
- IBM Data Science With SQL Certificate
- IBM Image Processing and Computer Vision Certificate

### EXPERIENCE

Data Scientist, at JIT Solutions

January 2024 - Present

- Incorporate Machine Learning and AI concepts
- Facilitate hands-on learning
- Develop and deliver engaging curriculum
- Received, prepped, and cleaned the data from numerous clients
- Developed Machine learning models to facilitate hands-on training of the students
- Assessed students' learning to determine learning weaknesses and needs, successfully helping students perform.

Train2Learn in IT, Manchester, UK

January 2024 - Present

- Assessed students' learning to determine learning weaknesses and needs, successfully helping students perform.
- Met with students through online learning platforms.
- Created weekly appointments schedule for students, and set specific schedules for student math and statistics and tutors.
- Maintained communications with curriculum officials concerning curriculum, and submitted reports twice a week to keep the learning plans up-to-date for the students.
